Sprint 02 Meeting 05

Start Time: 12:15
End Time: 13:15
Venue: MSB First Floor

Notes

- Karabo implemented testing on GitHub and showed that she had nearly complete code coverage for the functionality implemented in sprint 1.
- Karabelo presented his drafts for the UML Diagrams once again, the team gave him feedback:
 - Take a closer look at the functions implemented in the JavaScript files and update diagrams accordingly
 - For the Scenarios View, go to the deployed site and see the different use cases.
- Dylan updated the facilities table based on the information displayed on the frontend.
