Start Time: 10:30
End Time: 14:00
Venue: MSB, 1st Floor

#### Notes

- The user icon was changed from the one with the circle to one without the circle.
- When a staff member is first assigned to an issue(i.e they've never been assigned an issue before), they must be added to the staff performance table and issues resolved should be zero.
- When a staff member clicks complete on a maintenance issue that was assigned to them, then average resolution time must update.
- When the system administrator filters issues by facility , that specific facility should be highlighted in a different colour on the chart.
