

11 Apr 2025 | 📅 Software Design

Attendees: Jayden Harold Tariro Muvevi Karabelo Borothe Dylan Naidoo
Karabo Bopape

Sprint 01 - Meeting 05

Venue: MSL Laptop Room
Start Time: 13:00
End Time: 16:00

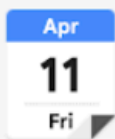

Notes

- Discussed approval of role by admin
 - Upon registration a user picks a role, staff or resident and is then taken to the dashboard where their role will be shown as pending until approved by admin.
 - Admin then uses time to and role indicated to decide whether to approve or deny request
- Discussed the procedure for making edits:
 - Pull from Github before making edits to files to ensure everything is up to date
 - Use LiveServer to ensure code is working as expected before committing
- Added time variable (datetime2) in Users table for admins to cross check when verifying roles

The following action items were completed:

Action Items

- HTML for Modals
- Event listeners for Modals

Software Design
