Attendees: Jayden Harold Tariro Muvevi Karabelo Borotho Dylan Naidoo  
Karabo Bopape

### Sprint 03 Meeting 02

|                        |
|------------------------|
| Start Time: 12:00      |
| End Time: 13:00        |
| Venue: MSB First Floor |

#### Notes

- Discussed the logic behind this sprint's user stories:
  - The notifications page displays maintenance issues and events so residents can plan accordingly
  - Logged maintenance issues have four status stages:
    - Reported;
    - Assigned;
    - In progress;
    - Completed
  - When a facility is being used for an event, that facility is not available for the whole day (to take into account setting up beforehand, the event itself, and clearing up afterwards) - a notification will be sent to residents.
