#### Sprint Goals:

1. User verification
  - Was the goal achieved? Yes.
  - What features were implemented?
    1. Integrate 3rd party identity provider (Google OAuth)
    2. Implement dashboards for the 3 roles (Admin, staff & resident)

#### Features to be added in sprint 2:

1. User management
  - implement all features - management of users by admin - onboarding, access control & role assignments
2. Booking system
  - Must be able to reserve a facility for a specific date and time
  - No double booking should be allowed
  - Admins should be able to approve or decline bookings

#### Feedback from product owner:

- Consider making the web app mobile friendly as a bonus feature
