

7 Apr 2025 | 📅 Software Design

Attendees: Jayden Harold Tariro Muvevi Karabelo Borotho Dylan Naidoo
Karabo Bopape

Sprint 01 - Meeting 01 (First Group Meetup)

Venue: Commerce Library Discussion Room 5
Start time: 11:00
End time: 12:00

Notes

- Prepare questions for the client:
 - The following questions were prepared
 1. How many user stories do we need (one for residents, facility staff and admin)?
 2. Website name.
 3. UI requirements.
 4. What information is required for user registration?
- Sprint 1:
 - We decided to focus on User Verification and User Management for the first sprint
 - Need to run decision by client
- User Interface:
 - We researched and looked through various existing sports facility management websites for inspiration
 - We decided on a color palette for our website

The following action items were completed during the meeting:

Action items

- Create a GitHub repository
- Create an Azure account
- Create Scrum Board

To discuss in the next meeting:

- Sprint 1 Planning: Discuss requirements with client
- Present questions to client
